# Learn to Serve, Teach and Heal THOSE IN NEED

## A Distinctive Education

At the **Lloyd L. Gregory School of Pharmacy**, you'll discover an education focused on preparing you not only for your future but also to make a true difference in the lives of others.

Benefit from a program that integrates faith into the curriculum. Experience life-changing medical mission trips in the United States and around the world to places such as Costa Rica, Africa, the Amazon and the Dominican Republic. Learn in small classes where you'll receive personalized instruction and easy access to your professors. Enjoy a Christian environment where your professors will pray with you.

CHILDREN'S HOSPITAL

*"They encouraged me to seek academic and leadership experiences locally as well as at the state and national level, through which I developed a great passion for the profession of pharmacy. I was trusted to represent the school in this capacity, an honor to which I owe much of my personal and professional growth."*

A man and a woman, both wearing white lab coats, are walking on a paved path in front of a large, modern building. The man is on the left, wearing a light blue shirt, a blue and white striped tie, and dark blue trousers. He is smiling and gesturing with his hands. The woman is on the right, wearing a white lab coat over a striped dress and high-heeled sandals. She is also smiling and looking towards the man. The background features a large, multi-story building with a yellowish-tan facade and several windows. There are palm trees and other tropical plants around the building. The scene is brightly lit, suggesting a sunny day.

## FACILITIES

The School of Pharmacy is housed in Gregory Hall, a four-story, 45,000-square-foot building constructed in 2004 and considered among the most technologically advanced academic pharmacy facilities in the nation.

## A Powerful and Affordable DEGREE

### Financial Aid Opportunities

As part of its commitment to helping students achieve their academic goals and ultimate dream of impacting lives in the pharmacy profession, PBA awards more than **\$70,000 in scholarship money** to qualified candidates in each incoming class. These scholarships are intended to recognize the effort that goes into achieving excellence as an undergraduate student and may be awarded to recipients for up to the first three years of the program.

Additionally, there are more than two dozen scholarships available to you as a Pharm.D. student at PBA. These scholarships are given annually to students who achieve scholastic recognition, strive for professional involvement and display the leadership qualities necessary to excel in the dynamic profession that you have chosen. Florida Bright Futures Scholarships may be applied to your tuition as well, based on remaining credit hours available.

There are also numerous loan-assistance programs available through PBA's Financial Aid Office. Students who wish to apply for aid can do so through this office at [www.pba.edu/financial-aid-scholarships](http://www.pba.edu/financial-aid-scholarships).

2

*The Gregory School of Pharmacy offers TWO graduate degree programs:*

- Pharm.D.
- Pharm.D./MBA

## Mission Trips

**Servant leadership is one of the driving forces behind the Gregory School of Pharmacy's (GSOP) very existence.** Students are encouraged to follow Christ's example of serving, teaching and healing those in need. One of the ways in which this commitment is demonstrated is through the medical mission trip program. GSOP sponsors several trips each summer, and student involvement is critical to each trip's ultimate success.

These mission teams have treated countless patients around the world, including the Amazon, Belize, Bolivia, Costa Rica, the Dominican Republic, Guatemala, Honduras, Taiwan, Uganda and Zambia. Our faculty and students also have initiated outreach programs within the local community that include numerous health screenings, distribution of educational resources to underserved areas within Palm Beach County and the planning of activities for children to educate and raise awareness of key issues impacting their ability to make smart decisions in life. These initiatives are essential in demonstrating our commitment and love for those whom our students will ultimately serve upon graduation.

## Employment

**Graduates are well prepared and excel in a variety of professional settings, including hospital pharmacy (institutional), community/retail and residency practice.** During the four years, students are exposed to the multiple career opportunities available to the Pharm.D. graduate of tomorrow. Many services and programs are provided to help meet your professional goals, including a career-development series, guest speakers, professional associations and a personalized mentor program that matches students and faculty according to their areas of interest and expertise.

CLASS OF 2014

# The Admissions Process

## Step 1:

Make sure you have a plan in place to complete the required courses by May of the year you are seeking admission.

## Step 2:

Complete your Pharmacy College Application Service (PharmCAS) application at [pharmcas.org](http://pharmcas.org) by **March 1** in the year you wish to seek admission.

PharmCAS

PBA

## Step 3:

Send official transcripts (including updates as you complete classes), PCAT scores (code 104), and three letters of recommendation directly to PharmCAS. You may begin the PharmCAS application before assembling these documents.

## Step 4:

Complete Palm Beach Atlantic's supplemental application online at [pba.edu/apply-online](http://pba.edu/apply-online) by selecting "Doctor of Pharmacy" from the dropdown menu. Applications are reviewed only after all information outlined in steps 1-4 is received.

## Step 5:

The Admissions Committee will select the top candidates for campus interviews. Applicants who take pre-pharmacy courses at PBA may be eligible for the guaranteed interview program.

## Step 6:

Applications of interviewed applicants are reviewed again, and the final admissions decisions are made. The School of Pharmacy limits enrollment to approximately 75 students each academic year.
